🏠 koti-e Sangi Kabul Afghanistan

Education

Bachelor IN Computer Science

- Said Jamaluddin Afghani University

Bachelor IN Computer Science

- Said Jamaluddin Afghani University

Skills

- React
- Web Designing
- MERN Stack
- React Native
- Back end Technologies
- Next.js

About me

As a Full Stack Web Developer with a passion for creating innovative and scalable solutions, I bring expertise in both front-end and back-end technologies. With a proven track record of delivering high-quality software applications, I excel in designing and implementing robust, user-friendly systems.

Experience

Web & app Developer

- Taswee Media Production, Kabul

Full Stack developer

- Qalam, KABUL AFGHANISTAN

Full Stack Web Developer

- Kandahar NFC Complex, Kandahar

Database Developer

- Change English Language Centre

Extracurricular Activities

My Activity in During Development.

- Led the development of a customer portal, resulting in a 30% increase in user engagement.
- Implemented RESTful APIs to enhance data communication between the front-end and back-end.
- Collaborated with UI/UX designers to create responsive and visually appealing user interfaces.
- Conducted code reviews and provided mentorship to junior developers.
- Integrated third-party APIs and optimized application performance.
- Developed and maintained full-stack applications, ensuring high performance and responsiveness.
- Collaborated with cross-functional teams to design, implement, and test new features.
- Participated in agile development processes, contributing to daily stand-ups and sprint planning.
